Coworking & Productivity Space
motivecoworking.com

ABOUT MOTIVE

A coworking space is a community of like-minded people sharing an environment to help support a new of working. These types of spaces are designed to provide a collaborative and productive environment for individuals without the traditional constraints of a corporate feel.

Motive Coworking is a community based coworking spaces that focuses on breeding a happy and warm culture of like minded people to follow their passions! We try to help support our members with our own internal member network to create the cross pollination of ideas and services across all different industries.

We strive to empower every member with our resources, network and access to our partnership to help them achieve their own goals!

Startups Turning Ideas Into Reality

Realise Business

Motive Coworking have partnered with Realise Business to provide members & visitors access to the NSW Governments Business Connect program.

The program provides one-on-one business advisory & coaching services with the first four (4) hours being completely free of charge.

Click this link for more information <https://realise.business/business-advice/>

Venture Hub

We have partnered with Venture Hub who specialise first and foremost in developing strategic direction and detailed user stories to support current market conditions (inc. identifying any competitors known or otherwise).

We are currently looking to establish Joint Ventures with people who are passionately ready to invest time, money and energy in order to produce positive outcomes.

Sydney Hardware Incubator

At Sydney Hardware Incubator, our program includes tailored learning experiences for early stage inventors/founders with ideas of physical products in a wide variety of industries and based on a deep understanding of the business world. With a wealth of experience and an impressive list of mentors and directors, Sydney Hardware Incubator provides an unmatched experience for those with untapped potential.

WHAT'S ON – WEDNESDAYS

Ping Pong

Battle it out every wednesday night at 5pm to see who becomes the reigning champ for the week and is given a trophy for their efforts.

5pm – Wednesday

Member Support Catchup / Master Mind

Where members can come together to discuss their business problems and use the collective shared knowledge to better everyone's business, each person who joins will make an actionable list for themselves to keep them accountable for their goals of their choosing. This is moderated by one of the team members at Motive.

Friday Free Lunch

Come sit down, relax, have a beer, and meet our community!

Its the best time of the week! The team at Motive Coworking runs a free BBQ for everyone at the space, we have a mix between meat and meat free options! This provides a perfect opportunity to meet the community and to do some networking.

WHAT'S ON - FRIDAYS

PRIVATE MEMBER NETWORK

At Motive Coworking we love to help support our members! That's why we have decided to create a marketplace to make it easier for the cross collaboration of members. Every member service or product is at a discounted rate only for members of Motive coworking. If you want to get involved please contact us.

MEMBER SHOWCASE

Every week we run a weekly email blast to over 550+ people to highlight the products or services our members offer. Each week we pick one member to showcase by asking them a short list of questions about themselves, their business, and life outside of work.

[ACCESS MEMBER SHOWCASE](#)

LOCAL SPOTLIGHT

In the weekly email blast we add another section for a local spotlight which is a quick up write of a local business of who they are and what they offer to try to support local businesses around our area.

If you would like to be involved please shoot us an email at team@motivecoworking.com

Why doesn't the northern beaches have a warm, motivational, and inspiring coworking space with access to resources, shared knowledge, like minded people loving community?

We found a big gap and decided to take on the project back in 2019, with the goal to create space that people would love! Our first thought of course was to put as many plants in the space as possible. We're proud of our plant filled space (and yes, they're all real!).

We soon turned our attention to building and supporting relationships within our community by bridging the gap between business and customers. Our main focus was to create a community that is more than customers and business owners! We strive to connect with each member to try find solutions, networks and resources to better their business.

We feel it's necessary to create a community that helps support one another, with owners that truly care about its members. Motive is more than just coworking, we are all about working together and breeding good community.
